

We Recycle

We have a paper container on our parking lot where we collect used paper. We try to be good stewards of what we have. We use both sides of the paper, and use mistakes for scratch paper. This paper is sent to be made into newspaper and is kept out of the landfill. We recycle aluminum cans and plastic containers that we use at the church. We encourage anyone that uses our church to keep their soda cans and plastic containers out of the trash. We have special containers in our Fellowship Hall to put these items in and a member then takes the aluminum and plastic to be recycled. We recycle clothing through “Dress for Success” and other organizations that accept clothing donations. There are many people in need, and if we give a useable item to someone that cannot afford to purchase it, we are helping our neighbor and keeping the landfills free of these items. We are aware of what we throw away and what we can reuse. We are making a conscious effort to improve our planet.

Please recycle.
